### Product Management Experience

#### **Product Developer,** BU Spark! – Boston, MA

May 2023 - May 2024

- Led a team of **UX/UI designers** and **engineers** through the all stages of the **product's lifecycle** ideation, technical development, and launch.
- Guided my team through 40+ agile sprints by driving weekly planning and retrospectives, as both Lead Developer and Product Manager.
- Collected and analyzed data from 100+ user interviews and 13 beta tests to inform product requirements. Iteratively **prototyped**, **user tested** and **A/B tested** new features.

#### **Software Project Manager,** BU Spark! – Boston, MA

Sept 2023 - May 2024

- Led student teams in agile sprints to deliver ML/Generative AI solutions for clients, improving satisfaction by 20%.
- Managed 4 project portfolios quarterly, driving cross-functional teams to project success.
- Streamlined team coordination and collaboration and through Trello and Slack, enhancing project success.

# Engineering Experience

#### Computer Vision AI Data Engineer, Yuva AI – New York, NY

May 2024 - August 2024

- Created novel datasets (b.box, segmentation, keypoint & depth) using physics-based simulation platform for Fortune 500 healthcare & media clients.
- Optimized large-scale data processing pipeline, reducing speed by 15%. Saved over \$10K in compute costs.
- Increased synthetic data generation evaluation system accuracy by 20% for client projects.

#### AI Integration and Solutions Engineer, Dakota Systems – Chicago, IL

May 2023 - Nov 2023

- Collaborated with engineering teams to deliver scalable Generative AI models, driving production-grade applications and improving performance by 20%.
- Enhanced chatbot accuracy and response relevance by 30% through automated testing and prompt engineering techniques aligned with business requirements.
- Leveraged **AI tools** and libraries (NumPy, SciPy) to continuously **monitor** and **optimize** the chatbot's performance.

#### **Software Developer,** ZenHR – Amman, JO

July 2022 - Sept. 2022

- Developed and optimized software components for zenhr.com's front and backend using Ruby on Rails.
- Partnered with engineering, UX/UI, and product teams to deliver 3 new features, reducing bounce rate by 20%.
- Led the ideation and development of new features by incorporating **data analysis** and **user feedback** to ensure alignment with ZenHR's vision and strategic goals.

#### Skills

**Technologies** React, Next.js, HTML/CSS, Node.js, Ruby on Rails, AWS, Vercel, Docker, MySQL, MongoDB, Redis

Programming Python, Java, JavaScript, TypeScript, C, SML, Ruby

**Tools** MS Office (Excel), Trello, Jira, Atlassian, Slack, Google Analytics

**Design** Figma, Adobe Creative Cloud, Photography, Motion Graphics, Oil Painting

**Languages** English (native) | Arabic (native) | French (DELF B1 certified)

#### Education

**Boston University** – B.S. Computer Science, Minor in Visual Arts

2024
